

Some Day
I wanna be so close to you
To feel you, to see you, to touch you
To hear you, taste you and breathe you
To so know you
Close to you

Oh I, I'm gonna be so close to you
be near you, I'll be around you, I'll kneel before you,
I'll love you, I'll hold you and be held by you
I'll so know you, close to you

Some day I'll see you,
Some day I'll be with you forever,
Bring my whole self before you
Oh, together we'll be,
In the land beyond my dreams
Never apart, close to you,
Oh...

Some day I'll see you!
Some day I'll ride with Heaven's angels!
Across the diamond sands
To Your quarters!
Together we'll be, in the land of my dreams!
Never apart, close to you!
Never apart, with all heaven too..
Never apart, close to you!!
